AFFIDAVIT OF GEORGIE R. FREDERICK

I, Georgie R. Frederick, being duly sworn, state as follows:

1. My current address is 184 Stone Mill Drive, Martinez, Georgia 30907.
2. I am employed by Georgia Power Company as Manager-in-Training, assigned to the Operations Department as an On-Shift Unit Supervisor, at the Vogtle Electric Generating Plant near Waynesboro, Georgia.
3. The Board requested, at Tr. 11250 (Aug. 15, 1995), that I provide a statement regarding my recollection of a recommendation I made to keep a special record of diesel testing activities following the Site Area Emergency at the Vogtle Electric Generating Plant.
4. I made the following statement recorded by Mr. Mosbaugh on June 29, 1990: "I recall sitting in the war room the night of the event recommending that we keep a detailed log of everything we do, then we can reconstruct it. And it worked for 24 hours and they decided that -- somebody decided it's too

cumbersome, too much work." GPC Exhibit II-44 (Greene Ex. B) at 31.

5. My best recollection is that the statement I was recalling on June 29, 1990 was made during a meeting of the Event Review Team on March 20, 1990.

6. I recall recommending that a log be maintained at the diesel generator containing all of the testing and maintenance activities on the diesel generator following the event.

7. As reflected in my recorded statement above, I believe the log was initiated but then discontinued a day later. My recollection is that several days after making this recommendation I learned that the log had been discontinued because the normal plant documentation, such as maintenance work orders, was deemed sufficient to document this information.
