OFFICE OF SPECIAL
DOCKETING & SERVICE
BRANCH

Mr. Marvin I. Lewis
6504 Bradford Terrace
Philadelphia, Pennsylvania 19149

In the Matter of
PHILADELPHIA ELECTRIC COMPANY
(Limerick Generating Station, Units 1 and 2)
Docket Nos. 50-352 and 50-353

Dear Mr. Lewis:

Thank you for your undated note, which we received on June 4, 1984.

You have noted on a copy of a letter of May 15, 1984, from Joseph Rutberg to Charles Elliott (Enclosure 1) that you would like a copy of the report mentioned in that letter. However, it would appear that you already have a copy of that report, "State of the Art of Reactor Containment Systems, Document Failure Modes, and Mitigation Opportunities," as you have referenced page iii as your authority for the statement that the report is the first in a series of five.

Since it appears that you already have a copy of the report forwarded by Mr. Rutberg's letter of May 15, 1984, I am not forwarding another copy. However, the second item in the series has recently become available. It is a preliminary report, dated May 1984, titled "Mitigation Systems for Mark 11 Reactors." A copy is enclosed with this letter (Enclosure 2).

Sincerely,

Ann P. Hodgdon

Ann P. Hodgdon
Counsel for NRC Staff

Docket Nos. 50-352 and 50-353

Dear Mr. Elliott:

By letter dated March 22, 1984 we forwarded to you the monthly reports for November through February in connection with Contract NRC 03-83-092 and advised you that when a final report becomes available we would provide you with a copy. Accordingly, I am enclosing for your information "State of the Art of Reactor Containment Systems, Dominant Failure Modes, and Mitigation Opportunities."

Sincerely,

Joseph Rutberg
Assistant Chief Hearing Counsel
