Inspection Summary

Inspection on May 31 through June 1, 1984 (Inspection Report No. 70-925/84-03(DRSS); 70-1193/84-03(DRSS))

Areas Inspected: Routine, unannounced material control and accountability (MC&A) inspection including facility organization and operations, measurement and statistical controls, shipping and receiving, storage and internal controls, inventory, records and reports, and management of material control system. The inspection involved 10 inspector-hours onsite by one NRC inspector and began during regular hours.

Results: The licensee was found to be in compliance with NRC requirements in the seven areas examined during the inspection.
