Office of Nuclear Reactor Regulations
Attn: John F. Stolz, Chief
Operating Reactors Branch No. 4
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stolz:

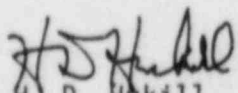

Three Mile Island Nuclear Station, Unit I (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Status of TMI-1 Technical Specification Change Requests (TSCRs)

Attached is a table which provides an updated status of TSCRs for TMI-1 which have not yet been approved by the NRC. This table should facilitate a mutual understanding of the status of each pending TSCR.

It is requested that the priority for NRC review and approval be given to TSCRs designated as "as soon as possible" (TSCRs 116, 126, 135 and 139).

We request, as in the previous TSCR status report, to be notified by telephone of any amendment that is issued with an implementation different than requested.

Sincerely,

H. D. Hakill,
Director, TMI-1
