Docket No. 50-329
Docket No. 50-330

Consumers Power Company
ATTN: Mr. James W. Cook
Vice President
Midland Project
1945 West Parnall Road
Jackson, MI 49201

SUBJECT: Construction Completion Program (CCP), NRC Hold Point Release for
Module 120D

Gentlemen:

The NRC staff has reviewed your letter dated June 21, 1984 requesting NRC authorization to proceed with CCP Phase 2 activities for Module 120D. A meeting on this subject was held at the Midland site on June 21, 1984, to provide clarification to the NRC staff and resolve any outstanding issues.

Based on the staffs' review of Stone and Webster (S&W) nonconformance reports and on discussions between the staff and S&W Construction Implementation Overview (CIO) personnel, it is apparent that there are programmatic weaknesses within the current CCP Phase 1 status assessment program and Quality Verification Program (QVP). We understand that you plan to resolve these CCP programmatic weaknesses by July 15, 1984.

In view of the extent of the S&W overview of Module 120D, the release of the S&W Hold Point Number 006, discussions with S&W CIO personnel, and our discussions with members of your staff, the NRC staff concludes that the results of Phase 1 CCP for Module 120D are accurate and complete. This letter, therefore, authorizes Consumers Power Company to proceed with Phase 2 activities for Module 120D.
