NOTICE OF VIOLATION

Florida Power and Light Company  
St. Lucie

Docket Nos. 50-335, 50-389  
License Nos. DPR-67, NPF-16

The following violation was identified during an inspection conducted on March 19 - 23, 1984. The Severity Levels were assigned in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C).

10 CFR 50 Appendix B Criterion V as implemented by the licensee QA Program (FPL-NQA-100A, Revision 5), requires that activities affecting quality shall be prescribed by procedures and accomplished in accordance with these procedures:

1. OP 17.1, The Collection and Storage of Quality Assurance Records for Nuclear Power Plants, Revision 11, Paragraph 5.3.1 delineates record storage requirements. These include such requirements as a description of the storage area, type of filing system to be used, and rules governing access to and control of the files. These are representative and not all inclusive.

Contrary to the above, OP 17.1 requirements have not been established for record storage at satellite locations.

2. OP 17.1, Paragraph 5.3.b, states that protection of QA records from fire shall meet the requirements of the 232 NFPA-1974 Code by approved fire resistant cabinets.

Contrary to the above, although QA records are stored in one-hour fire resistant cabinets, the adequacy of these cabinets has not been calculated as required by 232 NFPA-1974.

This is a Severity Level V violation (Supplement I).

Pursuant to 10 CFR 2.201, you are required to submit to this office within 30 days of the date of this Notice, a written statement or explanation in reply, including: (1) admission or denial of the alleged violations; (2) the reasons for the violations if admitted; (3) the corrective steps which have been taken and the results achieved; (4) corrective steps which will be taken to avoid further violations; and (5) the date when full compliance will be achieved.

Security or safeguards information should be submitted as an enclosure to facilitate withholding it from public disclosure as required by 10 CFR 2.790(d) or 10 CFR 73.21.
