MAY 29 1984

South Carolina Electric and Gas Company
ATTN: Mr. O. W. Dixon, Jr.
Vice President, Nuclear Operations
P. O. Box 764 (Mail Code F-04)
Columbia, SC 29218

Gentlemen:

SUBJECT: MEETING SUMMARY - REPORT NO. 50-395/84-13

This letter refers to the technical meeting held at your request in the NRC Region II office on May 3, 1984. This meeting concerned activities authorized by NRC Operating License No. NPF-12 of the Summer facility.

The meeting provided South Carolina Electric and Gas (SCE&G) an opportunity to demonstrate the ability of their ultrasonic examination procedure and equipment to detect, locate and size actual crack flaws propagating from the pipe inside diameter in centrifugally cast stainless steel as discussed in the attached report.

It is our opinion that this meeting was informative and beneficial to both NRC and SCE&G because of the exchange of information concerning inspection of cast stainless steel.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in NRC's Public Document Room unless you notify this office by telephone within 10 days of the date of this letter and submit written application to withhold information contained therein within 30 days of the date of the letter. Such application must be consistent with the requirements of 2.790(b)(1).

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

*Original Signed by
C. Julian*

David M. Verrelli, Chief
Reactor Projects Branch 1
Division of Reactor Projects
