In addition to the routine inspection of your licensed activities, this inspection served to introduce C. C. Thomas and A. E. Sanchez-Pope of the Los Alamos National Laboratory, which has contracted with our office to provide nonpower reactor inspection services.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.
