Philadelphia Electric Company  
(Limerick Generating Station,

Dear Dr. Claypool:

The Atomic Safety and Licensing Appeal Board for the Limerick nuclear facility does not now have before it issues concerning emergency planning in this proceeding. This matter, however, is currently being litigated before the Licensing Board. Accordingly, I am referring your June 27, 1984, letter to that Board for its consideration and any action it deems appropriate. Because your letter does not show that you sent copies to anyone, I am requesting the Commission's Secretary to serve copies of your letter and attachment (as well as this letter) on all parties and to file this in the public docket for this proceeding.

Sincerely,

*Christine N. Kohl*
