May 7, 1984

50-248

Dear Neighbor:

On Wednesday, May 16, 1984, between the hours of 9 a.m. and 10 a.m., Nebraska Public Power District, in conjunction with State and County authorities, will be performing a test of the Cooper Nuclear Station Early Warning System. This test will consist of sounding of the fixed sirens in the area and activation of Redi-Alert radios. Your local Emergency Broadcast System (EBS) station will also be broadcasting its routine EBS test message during this time.

If you should have questions concerning this test, please call (402) 564-9550 for further information.

Sincerely,

P. V. Thomason
Division Manager - Nuclear Operations
