Dear Mr. Hall:

License Condition No. 28 to SUA-56 authorizes decommissioning of the Western Nuclear, Inc. (WNI) Split Rock Mill, requires an interim sil cover be placed over the mills for "burial" area by September 30, 1989, and specifies details of a report summarizing these decommissioning activities be submitted to you by January 1, 1990. License Condition No. 33A requires WNI clean up areas impacted by windblown tailings by January 31, 1990.

In accordance with applicable requirements, please find attached three (3) copies of the final "Split Rock Mill Decommissioning and Interim Soil Cover Report" (October 1989). The report consists of four (4) volumes--i.e., Text and Maps, Appendices A-K, Appendices L-S, and Appendix T. Please note we are enclosing only two (2) copies of Appendix T and will be providing the third copy following reprinting.
