Gentlemen:

SUBJECT: QUALITY ASSURANCE PROGRAM MEETING - DOCKET 50-302

This refers to the meeting between FPC and NRC representatives at FPC headquarters on June 6, 1984, to discuss the operational quality assurance (QA) program. The meeting was conducted at our request to discuss proposed responses to my letter dated December 27, 1983, regarding additional information needed in our review of the QA program description. A list of FPC and NRC meeting attendees is enclosed.

In our opinion this meeting was beneficial and provided a better NRC understanding as well as clarification of certain QA program statements. Although not a firm commitment, we understand that your formal response of the areas discussed during this meeting will be submitted about August 17, 1984.

In accordance with Section 2.790 of NRC "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter and enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them.

Sincerely,

(Original signed by RCLewis)

Richard C. Lewis, Director
Division of Reactor Projects
