Gentlemen:

SUBJECT: OPERATOR LICENSING

This is to acknowledge receipt of your letter to this office dated May 21, 1984, from William C. Miller, Training Supervisor, Turkey Point Nuclear Plant, (PTP-TRNG-84-184) which forwarded correspondence from Mr. Tom Lightfoot, a Turkey Point Plant Training Instructor.

We have reviewed the submittals and find no basis for changing our determination that Mr. Lightfoot fails to meet the Senior Reactor Operator (SRO) experience requirements as specified in Item I:A.2.1 of NUREG-0737.

As you are probably aware, the NRC has recently focused additional attention on the experience and training requirements of Senior Reactor Operators, in particular, those whom the facility designates to be responsible for directing the activities of licensed operators according to 10 CFR 50.54(i). At the request of your staff, we met with members of the Turkey Point Training Department on April 26, 1984, to discuss specific and general application of the various SRO eligibility requirements. This was documented in a Meeting Summary to you from Mr. R. C. Lewis, Director, Division of Reactor Projects dated May 25, 1984. At that meeting, we made the determination and explained our rationale that certain individuals at Turkey Point failed to meet these eligibility requirements. In Mr. Lightfoot's case, he was permitted to take the SRO examination since he met the requirements for Reactor Operator, and if he passes the examination, he will be issued an Instructor Certificate.

Thank you for your cooperation in this matter.

Sincerely,

(original signed by H. C. Dance)
