SUBJECT: CONFIRMATION OF ACTION - DOCKET NOS. 50-280 AND 50-281

This letter refers to the telephone conversation on August 23, 1984, between Mr. S. A. Elrod and Mr. B. A. Wilson of this office and Mr. Harry L. Miller, Assistant Station Manager, Surry Power Station, concerning the results of the Senior Operator Licensing Examination conducted at the Surry Power Station on June 18, 1984.

Based on the matters discussed it is our understanding that the following actions will be taken:

- o The operator who failed Sections six and seven of the Senior Operator Written Examination administered on June 18, 1984, will be prohibited from performing licensed duties. He will not be returned to licensed duties until he has satisfactorily completed an accelerated requalification program and passed a written examination on the subject matter of those two sections of which he failed. The written examination is to be developed by the facility and approved by the NRC prior to its administration. The NRC is to review and approve the grading of the examination prior to the individual returning to licensed duties.
