Subject: [External_Sender] RE: Performance testing procedure

Ralph,

Entergy will leverage the NITSL organization which interacts with other nuclear utilities across the industry to send a redacted version of the Performance Based Testing procedure once it is developed and accepted. This would include goals and objectives of the test but exclude any potentially security sensitive or proprietary details regarding Entergy.

Thank you,

Sparky Soudah

Subject: Performance testing procedure

Sparky

Per our conversation last week. Entergy's request for a fee waiver is currently being reviewed by the NRC and one of our managers asked how will you share this procedure at the end of 2020 when it is completed, with the rest of industry? Please send me a reply by email at your earliest convenience. Thanks for your support.

Ralph
