In the Matter of  
GEORGIA POWER COMPANY, ET AL  
(Vogtle Electric Generating Plant, Units 1 and 2)  
(Docket Nos. 50-424 and 50-424 (OL))

50-424 AND 50-425 (OL)

Dear Administrative Judges:

This is to advise the Board of a substantial slippage in the schedule for the filing of emergency plans for Plant Vogtle. At the May 30, 1984, prehearing conference Applicants estimated that emergency plans would be provided to NRC and the parties in October, 1984. As presently scheduled, Applicants expect to file on-site emergency plans in December, 1984, together with a description of the arrangements which Applicants have made with the DOE Savannah River facility concerning the latter's response within the Savannah River site to an emergency at Vogtle. The December filing will include a general description of the interface between the plant and State and

county officials. Official State and county emergency plans are expected to be filed in May, 1985, although it is possible that a reasonable final draft of State and county plans can be furnished to NRC and the parties before the plans are officially filed.

Applicants have advised CPG/GANE and the NRC Staff of this change in schedule. Counsel for the parties have agreed that contentions relating to on-site emergency plans or the arrangements with Savannah River should be filed within 30 days after filing of plans and arrangements on these subjects. Contentions related to the State and county emergency plans would be due within 30 days after filing of same, or if draft plans are provided, within 30 days after furnishing of the draft.

Respectfully submitted,

SHAW, PITTMAN, POTTS & TROWBRIDGE
