Dear Mr. Andrews:

SUBJECT: INSERVICE INSPECTION AND TESTING PROGRAM - RELIEF FROM
ASME BOILER AND PRESSURE VESSEL CODE, SECTION XI

Enclosed is a copy of a "Notice of Environmental Assessment and Finding of No Significant Impact" for your information. This notice proposes an extension of interim relief from September 26, 1984 to September 26, 1985 for the inservice testing of pumps and valves discussed in our letter to you dated September 30, 1983.

The notice has been forwarded to the Office of the Federal Register for publication.

Sincerely,

Original signed by:

James R. Miller, Chief
Operating Reactors Branch #3
Division of Licensing

Dear Mr. Andrews:

SUBJECT: INSERVICE INSPECTION AND TESTING PROGRAM - RELIEF FROM
ASME BOILER AND PRESSURE VESSEL CODE, SECTION XI

By letter dated September 30, 1983, we granted relief, on an interim basis until September 26, 1984, from those inservice testing requirements of the ASME Code for the pumps and valves that you requested. Our review of your relief request is not yet complete and the basis for granting the current interim relief has not changed. We still agree on an interim basis with you that certain code testing requirements are impractical. Therefore, pursuant to 10 CFR 50.55a(g)(6)(f), we grant relief, on an interim basis until September 26, 1985, from those inservice testing requirements of the ASME Code for the pumps and valves that you requested.

The Notice of Environmental Assessment and Finding of No Significant Impact, a copy of which was provided to you previously, was published in the Federal Register on (49 FR).

Please contact us if you have any questions concerning this letter.

Sincerely,

James R. Miller, Chief
Operating Reactors Branch #3
Division of Licensing
