Mr. R. L. Andrews  
Division Manager, Nuclear Production  
Omaha Public Power District  
1623 Harney Street  
Omaha, Nebraska 68102

Dear Mr. Andrews:

SUBJECT: DIESEL GENERATOR RELIABILITY - GENERIC LETTER 84-15

In my July 2, 1984 letter on the above subject, I requested operating reactor licensees, pursuant to 10 CFR 50.54(f), to furnish specific information no later than 90 days from the date of the letter. I also specified that I would consider an extension of time for submittals if a proposed schedule and justification for delay were submitted within 45 days from the date of my letter. By your letter dated August 6, 1984, you requested a time extension until December 15, 1984. You stated that the extension is necessary due to manpower constraints, the time needed to collect, verify, and analyze the data, and the time required to formulate future plans. Accordingly, pursuant to 10 CFR 50.54(f), you are requested to furnish, under oath or affirmation, the requested information not later than December 15, 1984.

This request for information has been approved by the Office of Management and Budget under Clearance Number 3150-0011, which expires April 30, 1985.

Sincerely,

Original signed by:

Darrell G. Eisenhut, Director  
Division of Licensing
