Docket No. 50-285

Omaha Public Power District
ATTN: Mr. R. L. Andrews
Division Manager - Nuclear Production
1623 Harney Street
Omaha, Nebraska 68102

Gentlemen:

We have received a copy of your application dated July 3, 1984, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application requested an additional extension of the 10 CFR 50.49 schedular requirements for environmental qualification of certain electrical equipment for the Fort Calhoun Station Unit No. 1. Fees pursuant to 10 CFR 170 were not remitted with your application.

Since your application was filed after the June 20, 1984 effective date of the revision to 10 CFR 170 (copy enclosed) on fees, it is subject to the provision of the revised rule. This rule requires licensees to remit an application fee of \$150 with each application for license amendment, relief, exemption and other requests. Therefore, it is requested that your company remit the required application fee of \$150 for your July 3 application.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 2 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by
