Dear Mr. Council:

SUBJECT: CONTROL OF HEAVY LOADS (PHASE I) FOR MILLSTONE UNIT 2

We have completed our review of control of Heavy Loads (Phase I) for Millstone Unit 2. Our review was based on your response to our December 22, 1980 generic letter on "Control of Heavy Loads" and supplemental information provided by you. Based on our review and that of our consultant, the Franklin Research Center, we have concluded that the guidelines of NUREG-0612, Sections 5.1.1 and 5.3, have been satisfied and that Phase I of this issue for Millstone Unit 2 is acceptable.

Our Safety Evaluation with the attached consultant's Technical Evaluation Report is enclosed. An evaluation of Phase II will be the subject of future correspondence.

Sincerely,

Original signed by:

James R. Miller, Chief
