Dear Mr. Lee:

During my meeting with Mr. R. F. Walker, Mr. C. K. Millen, and you on June 26, 1984, I expressed my concern about the large number of procedural violations that continue to occur at the Fort St. Vrain plant. Our June 22, 1984, inspection report 50-267/84-16 identified a violation for failure to have a shift turnover procedure, and our most recent inspection report 50-267/84-14 dated July 6, 1984, cited you for five more apparent procedural violations. It would appear to me that the corrective action you took on previous violations of this nature has been less than effective. In addition to the response required by these inspection reports and Notices of Violation, I am requesting that you personally evaluate the circumstances surrounding these apparent procedural violations and indicate to me those actions you are taking to prevent recurrence. Following your evaluation of these violations, I would like to meet with you to discuss your findings in detail. Please call me to arrange this meeting at the earliest reasonable date.

Sincerely,

"Original Signed by:
