R.J. Cashwell  
Reactor Director  
Engineering Research Bldg.  
1500 Johnson Drive  
Madison, Wisconsin

Dear Mr. Cashwell:

By signature below, I hereby affirm and acknowledge an agreement between University Hospital and the University of Wisconsin Nuclear Reactor (UWNR) to provide primary medical services in the event of an emergency at UWNR. University Hospital will also provide medical services for accident victims when radiological hazards are, or may have been present.

University Hospitals has treated patients involved in radiation accidents in the past. University Hospital has facilities for treatment of contaminated accident victims, for decontamination of injured personnel, and for evaluation of personnel exposure to, and uptake of, programs using radioisotopes. The expertise and depth in personnel we have on campus with highly trained radiation physicists and at the Hospital in areas such as hematology, immunology, and blood therapy provide the necessary combination of resources to deal effectively with severely injured patients.

Emergency Room personnel receive initial training and periodic review in the handling of accident victims where radiological hazards are present.

Telephone contact for the University Hospital is as follows:

Emergency Room  
University Hospital  
(608) 262-2398

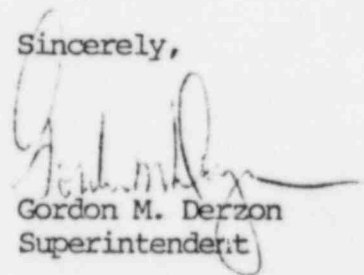

Frank C. Larson, M.D.  
Director, Clinical Laboratories  
Professor of Medicine  
(608) 263-7509

Robert F. Schilling, M.D.  
Chief, Hematology Division  
Professor of Medicine  
(608) 263-1836

Robert R. Radtke  
Health Physicist  
(608) 262-8769

Correspondence concerning this Hospital's participation and response as a patient-referral resource should be directed to my office.

Sincerely,

Gordon M. Derzon  
Superintendent
