SUBJECT: Limerick Generating Station, Units 1 and 2
Technical Specifications Change Request No. 94-48-0
Technical Specifications Page Correction

Gentlemen:

By letter dated January 27, 1995, PECO Energy Company submitted Technical Specifications (TS) Change Request No. 94-48-0, "Eliminate Active Safety Function of Drywell Chilled Water System Valves," in accordance with 10 CFR 50.90.

During a review of the TS Change Request, an unrelated column displacement error was identified on Page 3/4 6-24 of the current Unit 1 TS. Specifically, the column displacement pertains to penetration number '045A (B, C, D)'. Since TS Page 3/4 6-24 is included with TS Change Request 94-48-0, an opportunity exists to correct this error.

Therefore, attachment 1 to this letter contains a corrected Unit 1, TS page 3/4 6-24. The proposed changes are indicated by vertical bars in the margin of the page. This corrected TS page supersedes the affected Unit 1 page previously submitted with TS Change Request No. 94-48-0, and is being submitted under affirmation. The associated affidavit is enclosed.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

G. A. Hunger, Jr.

G. A. Hunger, Jr.,
Director - Licensing
