Dear Mr. Bauer:

SUBJECT: APPROVAL OF OFFSITE DOSE CALCULATION MANUAL

By letter dated September 14, 1984, the Philadelphia Electric Company (PECO) provided as a reference document an "Offsite Dose Calculation Manual, Rev. 2" for the Limerick Generating Station, Units 1 and 2. PECO has also committed to supply as an Appendix to the ODCM, the computer model dose parameters for the various age groups and organs that are not now critical, but could be critical in later years. The NRC staff find that this ODCM generally uses documented and approved methods that are consistent with the methodology and guidelines in NUREG-0133, and is an acceptable reference.

Therefore the purpose of this letter is to notify you that this ODCM has been approved and is now in compliance with Section 6.14.1 of the Final Draft Limerick Technical Specifications issued with the staff's letter of September 21, 1984.

Sincerely,

Original signed by:
