Gentlemen:

This refers to the inspection conducted by Messrs. L. E. Ellershaw and J. T. Conway of the Vendor Program Branch during the period April 23-27, 1984, of activities authorized by NRC Construction Permit CPPRs 141, 142, and 143 for Palo Verde Nuclear Generating Station, Units 1, 2, and 3 and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included receiving inspection and procurement document control. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

One unresolved item is identified in paragraph 2.d of the enclosed inspection report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
