Tennessee Valley Authority  
ATTN: Mr. H. G. Parris  
Manager of Power and Engineering  
500A Chestnut Street Tower II  
Chattanooga, TN 37401

Gentlemen:

SUBJECT: REPORT NOS. 50-327/84-01 AND 50-328/84-01

This refers to the supplemental response from the Tennessee Valley Authority (TVA) dated May 25, 1984, which provided clarification requested by the Region II letter dated April 27, 1984, concerning additional information on the TVA denial of Item B in the Notice of Violation issued on February 14, 1984. These activities were conducted under NRC License Nos. DPR-77 and DPR-79 for the Sequoyah facility.

The additional information which was provided included the Sequoyah procedure for receipt, storage, and handling of safety-related equipment and a description of changes that you intend to make in that procedure. As discussed during a telephone conversation on June 25, 1984, between Mr. D. M. Verrelli of this office and Mr. L. M. Mills of the TVA staff, it is Region II's understanding that you will reevaluate this procedure to determine if additional changes are needed and that all necessary changes will be made by July 31, 1984.

The NRC continues to believe that the violation occurred as originally stated. The corrective action commitments made by TVA are acceptable. Region II will review implementation of this corrective action during subsequent inspections.

Should you have any questions concerning this letter, we would be happy to discuss them.

Sincerely,

(Original signed by JPO'Reilly)
