Docket Nos.: 50-445

COMANCHE PEAK STEAM ELECTRIC STATION
NSSS AUXILIARY RELAY RACKS
QA FILE: CP-84-26, SDAR-150
FILE NO.: 10110

Dear Mr. Hunter,

On August 31, 1984 we verbally notified your Mr. Hunnicutt of an inconsistency identified by comparison of the "Q-List" in the FSAR Chapter 17 and the Environmentally Qualified Equipment List which revealed the NSSS Auxiliary Relay Racks are not qualified per IEEE-323-1974.

We have completed our investigation and concluded that the matter is not reportable under 10CFR50.55(e). Records supporting this determination are available for your inspector's review at the CPSES site.

Very truly yours,

A handwritten signature in cursive script that reads "Billy R. Clements".
