NOTICE OF VIOLATION

PECO Energy Limerick Nuclear Generating Station Unit 1 Docket Nos. 50-352 License No. NPR-39

During an NRC inspection conducted on August 22, 1995, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," (60 FR 34381; June 30, 1995) the violation is listed below:

Contrary to the above, on August 22, 1995, at about 11:00 AM, a worker did not follow oral radiological controls instructions. He was given oral instructions by radiological controls personnel at the start of a Unit 1 reactor vessel head O-ring replacement job. The instructions were that personnel were not to lay on their backs under the vessel head and O-ring without a face shield. The worker was observed lying on his back directly under the vessel head and O-ring and not wearing a face shield while attempting to remove the O-ring from the Unit 1 reactor vessel head.

This is a Severity Level IV Violation (Supplement IV).

The NRC has concluded that information regarding the reason for the violation and the corrective actions taken and planned to correct the violation and prevent recurrence is already addressed in NRC Combined Inspection Report Nos. 50-352/95-12; 50-353/95-12. Therefore you are not required to respond to the provisions of 10 CFR 2.201. However, if you choose to respond, clearly mark your response as a "Reply to a Notice of Violation", and send it to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the Regional Administrator, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice of Violation (Notice), within 30 days of the date of the letter transmitting this Notice.

Dated at King of Prussia, Pennsylvania this **G T** day of October, 1995 This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

Dated at King of Prussia, Pennsylvania this TH day of October, 1995
