SUBJECT: WITHDRAWAL OF PROPRIETARY INFORMATION

NRC has made a determination that the requests for proprietary treatment for the following documents were unacceptable. As a result, General Electric has requested that these documents be removed from the Docket file and destroyed. Please request your staff to review their files for the documents listed below. Before action is taken to destroy these documents, please ensure that your staff or your contractors have not relied on any of the material in these documents for their safety conclusions. If a certain document that GE requests to be destroyed was used to support a safety conclusion, the document can not be destroyed.

Please respond to this memorandum by identifying the documents that you have destroyed or need to retain because they were used for your safety findings. Your response is requested by October 31, 1995. The TAC number to use for the review is M91923.
