

SAFEGUARDS INFORMATION

SEP 28 1984

Docket No. 50-397

Washington Public Power Supply System
 P. O. Box 968, 3000 George Washington Way
 Richland, Washington 90352

Attention: Mr. G. C. Sorensen, Manager
 Regulatory Programs

Gentlemen:

This acknowledges receipt of your letter of July 3, 1984, by which you transmitted Revision 6 to the Washington Nuclear Project-2 Physical Security Plan. We have reviewed the information contained in the plan revision and have determined that portions of the plan changes are consistent with the provisions of 10 CFR 50.54(p) and are therefore acceptable. However, as indicated in the enclosure hereto, two portions were not acceptable due to apparently reducing security plan commitments by deleting a security measure in one case and substantively increasing the time commitment for calibration of security-related screening devices in another. Accordingly, you are to follow your previously approved plan in regard to these items.

Should you want to pursue changing the security plan with respect to the changes set forth in the enclosure, you should submit under the provisions of 10 CFR 50.90.

The enclosure to this letter contains Safeguards Information which is required to be protected against unauthorized disclosure in accordance with 10 CFR 73.21.

The enclosures to your letter contain Safeguards Information of a type specified in 10 CFR 73.21 and are being withheld from public disclosure.

If you have any questions concerning this matter, please contact A. D. McQueen of this office, (415) 943-3770.

Sincerely,

8410150537 840928
