Gentlemen:

Subject: Integrated Design Inspection 50-443/83-23

This refers to your letter dated June 29, 1984, which was in response to our letter forwarding the subject inspection report dated April 2, 1984.

Thank you for informing us of the corrective and preventive actions documented in your letter. Certain of the items identified in the enclosure to this letter require additional information, review, and/or reinspection to assess their acceptability. A close-out inspection by members of the team is planned to examine these areas. Please have the additional information described in the enclosure to this letter available for the close-out inspection currently scheduled for the week of November 5, 1984.

Your responses to other Integrated Design Inspection findings not included in the enclosure have also been reviewed by the NRC. We consider your response for those items to be acceptable without further review.

Sincerely,
Original signed by
