

October 4, 1995

Mr. E. Kraft, Site Vice President  
Quad Cities Station  
Commonwealth Edison Company  
22710 206th Avenue North  
Cordova, IL 61242

Dear Mr. Kraft:

From July 23 through September 1, 1995, C. Miller and others of this office, and by R. Ganser of the Illinois Department of Nuclear Safety conducted an inspection of your facility. This inspection included a review of authorized activities for your Quad Cities Nuclear Power Station facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

The areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of a selective examination of procedures and representative records, interviews with personnel, and observation of activities in progress. We are concerned that the oversight and review of products and services have not been at a level to prevent equipment problems. Further, corrective actions for identified problems appear to be backlogged. Both of these items require continued management attention.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

*Original signed by P. L. Hiland*

Patrick L. Hiland, Chief  
Reactor Projects Branch 1
