October 13, 1995

Ms. Nancy McGreevy
Oyster Creek Nuclear Watch
P.O. Box 243
Island Heights, New Jersey 08732

Dear Ms. McGreevy:

This letter is in response to a letter you wrote to the New Jersey Department of Environmental Protection, dated September 15, 1995, regarding releases of radioactive material from the Oyster Creek Nuclear Generating Station. Since the Oyster Creek Nuclear Generating Station is licensed by the United States Nuclear Regulatory Commission (NRC), it was forwarded to us by the New Jersey Department of Environmental Protection.

In your letter, you request data on the radioactive effluent releases made from the Oyster Creek Nuclear Generating Station from its on-line inception, through the 1980's. The information you have requested is currently being collected from documents on file with the NRC, however due to the extended time frame involved, records that have been retired to microfiche must be searched in order to provide you with an accurate answer. This search will be performed by the Office of Nuclear Reactor Regulation at NRC Headquarters in Rockville, MD, and may take several weeks.

In the interim, should you have any additional questions, please contact Charlie Willis at (301) 415-1091 or me at (610) 337-5246.

Sincerely,

David J. Chawaga
State Liaison Officer
