SUBJECT: NRC INSPECTION NO. 50-293/95-18

Dear Mr. Boulette:

This letter refers to the Emergency Preparedness inspection conducted by Messrs J. Lusher and D. Silk of this office on August 28-31, 1995 of activities authorized by NRC License No. DRP-35 at the Pilgrim Nuclear Power Station. Our findings were discussed by Mr. J. Lusher with Mr. L. Olivier, Vice President Nuclear and Station Director, and other members of your staff at the conclusion of the inspection.

Areas examined in this inspection are important to public health and safety, and are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, you had effective programs for emergency preparedness in place. No safety concerns or violations of regulatory requirements were observed and no response to this letter is required.

Your cooperation with us is appreciated.

Sincerely,
