

JUL 19 1984

Docket No.: 50-508

APPLICANT: Washington Public Power Supply System

FACILITY: Nuclear Project 3

SUBJECT: MEETING SUMMARY

On July 10, 1984, NRC and applicant representatives met in Bethesda, Maryland, to discuss the details of the applicant's position with respect to deconvolution. A meeting notice and attendance roster are enclosed (Enclosures 1 and 2 respectively).

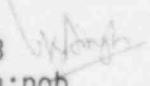

The applicant presented information on the following items: (i) WNP-3 situation and status, (ii) WNP-3 structural review summary, (iii) Licensing documents tracking system history responses to Structural Engineering Branch questions, (iv) Summary of structural audit, (v) Seismic dynamic analysis comparison of finite element/boundaries approach and elastic half-space approach and, (vi) conclusion. The highlights of the applicant's presentation are shown in Enclosure 3.

It was agreed that the Structural Engineering Branch would review the materials submitted to them and provide their comments at a later date.
