October 13, 1995

MFN 22095
Docket 52-004

Document Control Desk
U.S. Nuclear Regulatory Commission
Washington DC 20555

Attention: Theodore E. Quay, Director
Standardization Project Directorate

Subject: Transmittal of TRACG PANTHERS Facility Nodalization and
SBWR Containment Model Diagrams for BNL

- Reference:
1. GE/NRC Weekly Telecon on SBWR Testing - October 3, 1995.
 2. Letter MFN 217-95 from James E. Quinn (GE) to Theodore E. Quay (NRC), "Transmittal of TRACG Input Decks for BNL", dated October 13, 1995.
 3. Letter MFN 066-94, J.F. Klapproth (GE) to M. M. Razzaque, "Transmittal of TRACG User's Manual", dated June 15, 1994.

In response to NRC request (Reference 1), we have enclosed diagrams of the TRACG PANTHERS facility nodalization and SBWR containment model. These diagrams are to be used in conjunction with the GE proprietary TRACG input decks provided by Reference 2.

In the event that an additional TRACG User's Manual is required by the BNL, we suggest contacting Mr. M. M. Razzaque who received five manuals in mid-1994 (Reference 3).

Sincerely,

James E. Quinn
