Subject: Distribution of Documents

Gentlemen:

As of September 1, 1984, Offshore Power Systems, Westinghouse Electric Corporation department, was officially closed. Since that date, there has been a multitude of documents mailed to various engineers and managers of Offshore Power Systems who are no longer with the company. The only personnel remaining are involved in maintaining the manufacturing facility until it is sold.

Therefore, please discontinue distributing documents to OPS. I am sure you are aware of the cost you must be incurring unnecessarily. If I can be of further assistance, please do not hesitate to call me on (904)751-3405.

Sincerely,

Ruth C. Harrison
