Docket No. 50-293
License No. DPR-35

Generic Letter 95-07: Pressure Locking and Thermal Binding
of Safety-Related Power Operated Valves

Boston Edison intends to implement the actions addressed in this Generic Letter by February 23, 1996 as requested. As part of our Generic Letter 89-10 MOV Program, we have addressed the pressure locking and thermal binding issue and taken action in accordance with GL89-10 per our Long Term Plan Schedule commitments. We are in the process of reviewing other safety related, power operated gate valves to determine susceptibility. Based on our review to date, we do not expect to need additional valve modifications.

Should you have any questions regarding this subject, please call Marie Lenhart at 508-830-7937.
