October 11, 1995

Florida Power Corporation Crystal River Energy Complex Mr. P. M. Beard, Jr. (SA2A) Sr. VP, Nuclear Operations ATTN: Mgr., Nuclear Licensing 15760 West Power Line Street Crystal River, FL 34428-6708

SUBJECT: NEW REGION II ORGANIZATIONAL CHARTS

Gentlemen:

As part of the NRC initiatives to increase efficiency, increase span of control, and more effectively regulate the nuclear industry, Region II will be reorganized effective October 15, 1995. Enclosed are revised Region II organizational charts reflecting this change.

Should you have any questions, please contact me at 404/331-5509.

Sincerely,

Orig signed by Kerry D. Landis

Kerry D. Landis, Acting Chief Reactor Projects Branch 2 Division of Reactor Projects

### DIVISION OF REACTOR PROJECTS

E. MERSCHOFF, DIRECTOR
J. JOHNSON, DEPUTY DIRECTOR

Implements and coordinates under guidance provided by the Office of Nuclear Reactor Regulation the inspection of all reactors and related project management activities. Supervises and directs the resident inspection staff at each reactor facility and coordinates site inspection activities with the Division of Reactor Safety. Included are power reactors under construction, in startup, and in operation. The span of activities includes, but is not limited to, routine, special, and reactive inspections, enforcement, assessment, allegation follow-up, and the recruiting and training of staff. Coordinates with the Project Division of the Office of Nuclear Reactor Regulation.

### TECHNICAL ASSISTANT C. Julian

The Technical Assistant directly supports Division management through completion or coordination of special projects; conduct of self-assessment functions; review of effection close-out packages for completeness, and tracking of response to assigned action items

# REACTOR PROJECTS BRANCH 1-6

Pians, directs, and coordinates the inspection activities and related project management functions at assigned reactor facilities. Supervises and trains staff, including resident inspectors. Performs assessment of power reactor facilities. The span of activities includes, but is not limited to, routine, special and reactive inspections, enforcement, assessment, altegation follow-up, and the recruiting and training of staff. Coordinates inspection activities with the Division of Reactor Safety and the Office of Nuclear Reactor Regulation. Acts as fialson with the Project Division counterpart in the Office of Nuclear Reactor Regulation.

# DIVISION OF REACTOR SAFETY A. GIBSON, DIRECTOR J. JAUDON, DEPUTY DIRECTOR

The Division of Reactor Safety supports the Office of Nuclear Reactor Regulation, the Regional Administrator and the Division of Reactor Projects by Implementing the NRC power reactor inspection and enforcement program in the areas of engineering, maintenance, operator requalification, radiological controls, emergency preparedness and security, by implementing the NRC operator examination program, by providing specialized technical support; by review of licensee changes to quality assurance, emergency preparedness and security plans; and by participating in the NRC SALP process.

# ENGINEERING BRANCH C. Casto, Chief

The Engineering Branch supports the Office of Nuc. Ner Reactor Regulation and the DMIslon of React. Projects by inspecting reactor licensee activities in the area of engineering. The Branch provides support by providing technical expertise in areas required by the inspection program and by participating in the NRC SALP process. The Brench conducts region-based core, reactive and regional initiative engineering inspections.

activities in the area of maintenance. The Branch provides support by providing technical expertise in

Projects by inspecting reactor licensee a in specialist areas. The Branch provides by providing technical expertise in sreas

d by the inspection program and by seting in the NRC SALP process. The session in conducting region-based core,

we and regional initiative engineering and

ance inspections.

# OPERATOR LICENSING AND HUMAN PERFORMANCE BRANCH T. Peebles, Chief

The Operator Licensing and Human Factors Branch supports the Office of Nuclear Reactor Regulation and the Division of Reactor Projects by administering the operator licensing program, by conducting operator requalification training inspections, by providing expertise for the evaluation of reactor operations, and by pertidipating in the NRC SALP process. The Branch conducts region-based core, reactive and regional initiative operator licensing and training inspections.

## DIVISION OF NUCLEAR MATERIALS SAFETY

# B. MALLETT, DIRECTOR D. COLLINS, DEPUTY DIRECTOR

# Technical Assistant T. Decker

The Technical Assistant directly support Division management through completion or coordination of special projects; conduct of self-assessment functions; review of allegation close-out packages for completeness, and tracking of response to assigned action itsens.

The Division of Nuclear Materials Safety is responsible for inspection and technical evaluation of all NRC regulated areas associated with nuclear materials licensees and fuel facilities in Region II. The Division Issues specified categories of materials licenses for Region II. The Division is responsible for project management activities for fuel facilities, independent Spent Fuel Storage Installations at power reactor facilities in Region II and oversight of all decommissioning activities in the Region. The Division has responsibility for the Region II Agreement State Program and acts as the focal point for coordination with NMSS Headquarters. The Division fully supports and participates in the Region II Incident Response Program. The Division Director reports to the Regional Administrator.

### Agreement State Program Officer R. Woodnuff

The Agreement State Program Officer edministers the Agreement State Program oversight in Region II. This includes the review of materials safety programs in the Agreement States in Region II, coordinating safety issues and review of operational events occurring in Agreement States in Region II. The Officer also serves as the principal contact for the Program with Agreement States and coordinates and participates in technical assistance and training for Agreement State personnel. The Agreement State Program Officer reports to the Division Director.

# FUEL FACILITIES BRANCH E. McAlpine, Chief

The Puel Pacifities Branch performs inspections and evaluations of all Region II fuel facilities. The Branch conducts inspections at fuel facilities including the resident inspector program at one Category I fuel facility and routine inspections at all facilities in the stees of operational safety, radiation safety, energency preparatives, physical security and reudeer orticality safety. The Branch implements the limitarcomment Policy in connection with findings for facilities. The Branch provides the regional select management oversight for fuel facilities and independent Spent Fuel Storage Installations at larger reaction facilities in Region II. The Branch acts in a food point for coordination with Midds fleedquarters in the fuel facility area and supports the Region II brother fleeponee program in this area. The Branch provides Regional support for NMSS cultimos/development in the fuel facility area. The Branch Chief reports to the Division Director.

# MATERIAL LICENSING/INSPECTION BRANCH 1 C. Hosey, Chief

The Materials Inspection/Licensing Branch 1 performs technical and safety reviews of issues and operational events of Scensed materials (medical, academic, R&D and industrial) in selected States or territories in Region II, the U.S. Navy Master Meterless License and non-Federal (schilles in Region il. The Branch conducts routine and reactive inspections for all types of licensed materials users in the jurisdictions indicated. The Branch implements the Enforcement Policy in connection with inspection findings. The Branch performs the technical review and issuance of materials licensing actions, including by-product, source and some nuclear material used in medical, industrial, and academic activities in the jurisdictions indicated. The Branch has the project management activities associated with the U.S. Navy Master Meterials License. The Branch oversees the icensing assistant for Materials Inspection/Licensing Branches 1 and 2. The Branch backs up the scensing assistant in maintaining the NRC official docket files. The Branch supports the Region II Incident response in the materials area. The Branch coordinates Regional input into NMSS program guidanos/development in the materials area. The Branch Chief reports to the Division Director.

# MATERIALS LICENSING/INSPECTION BRANCH 2 J. Potter, Chief

The Materials Inspection/Licensing Branch 2 performs technical and safety reviews of issues and operational events related to all uses of Boensed materials (medical, scademic, R&D, and Industrial) in NRC jurisdiction in Region II Agreement States, Federal licensees, selected States and territories in Region II, and the Barnwell Low Level Waste Site. The Branch conducts routine and reactive inspections for all types of licensed materials users in the jurisdictions indicated. The Branch implements the Enforcement Policy in connection with inspection findings. The Branch exercises oversight of the Regional reciprocity fiting and tracking system. The Branch performs the technical review and issuance of materials Scensing actions, including by-product, source and some special nuclear material used in medical, industrial, and academic activities in the jurisdictions Indicated. The Branch oversees the coordination of the meterials license terminated sites program for Region II. The Branch backs up the floansing assistant in maintaining the NRC official docket files for the materials files. The Branch coordinates Regional input into NMSS program guidance/ development in the materials area. The Branch Chief reports to the Division Director.

# DIVISION OF RESOURCE MANAGEMENT AND ADMINISTRATION

G BENOIT, DIRECTOR

Manages all administrative functions in the Region, including planning, coordinating, directing, and administering the financial, human, and properly resources of the Region.

HUMAN RESOURCES STAFF
A. Harper, Regional Personnel Officer

Performs recrultment, training, position evaluation, appointment of consultants, labor relations, time and attendance reporting, and equal employment opportunity administration.

# RESOURCES MANAGEMENT BRANCH J. Lankford, Chief

Performs budgeting, accounting, management analysis, travel, contract administration, purchasing, procurement of goods and services, and Regional imprest fund administration. Performs facility management functions, security, property management, and space planning.

# INFORMATION RESOURCES BRANCH J. Coleman, Acting Chief

Provides regional information support services, including computer operations, telecommunications, mail, and records/file management including FOIA. Computer services include application/system development, end user support, LAN administration, integration of headquarters and regional systems, office automation and equipment and software analysis. Telecommunications include both voice and data communication.
