Subject: Missile Door Calculation Errors
 W. J. Woolley 10CFR21 (7/5/84)

Reference: 1) W. J. Woolley Letter to J. G. Keppler,
 dated July 5, 1984.
 2) W. J. Woolley Letter to J. G. Keppler,
 dated August 1, 1984.

Dear Mr. Keppler:

This correspondence is to provide an update of the 10CFR21 filed by the W. J. Woolley Co. per the above referenced letters.

With regard to the missile shield doors identified in the July 5 correspondence for the Limerick Generating Station, the referenced errors have been reconciled with the customer and revised calculations have been submitted for approval. Based upon the reviews to date with the customer, it is anticipated that resolution for Limerick is complete.

We are presently performing a detailed review for the missile doors for the Sharon Harris Nuclear Station and anticipate a similar resolution of the engineering errors.

An update of the progress of the resolution of the referenced engineering errors will be submitted on or before October 1, 1984.

If there are any questions please contact me.

Very truly yours,

Dwaine A. Godfrey

REMARKS

Please have this document entered into the DCS.

I checked it under PT 21, author name & recipient name and could not find it on the system. It was previously sent to DMB the week of Sept. 10, 1984. Thanks. Chad
