Subject: Third Ten-Year Interval Inservice Inspection Program
Cooper Nuclear Station
Docket No. 50-298, License No. DPR-46

- Reference:
- 1) Letter (No. NLS950036) to U.S. NRC Document Control Desk from Nebraska Public Power District dated January 26, 1995, "Transmittal of Cooper Nuclear Station License Event Report No. 94-032"
 - 2) Letter (No. NLS950144) to U.S. NRC Document Control Desk from Nebraska Public Power District dated July 21, 1995, "Third Ten-Year Interval Inservice Inspection Relief Request"
 - 3) Letter to G. R. Horn (NPPD) from James R. Hall (NRC NRR) dated September 20, 1995, "Withdrawal of Request for Relief from the Requirements of 10 CFR 50.55a; High Pressure Coolant Injection (HPCI) Turbine Exhaust Line Pressure Boundary," (TAC No. M93037)

Gentlemen:

Enclosed is the initial revision of the Cooper Nuclear Station's (CNS's) Third Ten-Year Interval Inservice Inspection (ISI) program. This program is being submitted for Nuclear Regulatory Commission (NRC) review and approval per the requirements of 10 CFR 50.55a and has been prepared as part of the corrective actions and commitments stated in Reference 1. Please note that in Reference 2, the Nebraska Public Power District (District) submitted Relief Request RI-01 to allow for the presence of a fillet weld on the 10-inch diameter branch connection to the High Pressure Coolant Injection (HPCI) turbine exhaust line at CNS. This relief request has been subsequently withdrawn, as documented in Reference 3 and noted in the enclosed submittal.

NRC approval of the relief requests contained in the enclosed submittal is requested by December 31, 1995. The Third Ten-Year interval is scheduled to begin on January 1, 1996, pending completion of the Fall 1995 refueling outage. If you have any questions, or need any additional information, please contact me.

Sincerely,

J. H. Mueller
