Subject: McGuire Nuclear Station  
Docket Nos: 50-369 and 370  
Systematic Assessment of License performance  
SALP Report No. 95-99 dated September 15, 1995

Dear Sir:

The subject SALP report was reviewed at McGuire Nuclear Station during the SALP Board meeting of October 2, 1995. NRC management presented the SALP report led by Region II administrator Stewart Ebnetter and SALP Board chairman Jon Johnson. Duke Power management in attendance included M. S. Tuckman, Senior Vice President, Nuclear Generation Department, and T. C. McMeekin, Vice President, McGuire Nuclear Station.

During the previous SALP period, McGuire Nuclear Station held periodic meetings with the NRC to provide updates on McGuire performance and related improvement initiatives. These meetings resulted in excellent communications throughout the SALP period. As a planning target, we would propose the next McGuire plant performance update meeting be held in February, 1996. We will contact Region II personnel in the near future to discuss a firm meeting date.

If you require further information, please contact James E. Snyder at (704)875-4447.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'T. C. McMeekin'.

T. C. McMeekin
