Gentlemen:

This refers to the inspection conducted by Mr. J. P. Jaudon of this office during the period September 10-15, 1984, of activities authorized by NRC Construction Permit CPPR-147 for the Wolf Creek Generating Station and to the discussion of our findings with Mr. F. Rhodes and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included training department staffing, training records, general employee training, fire brigade training, mechanical and electrical maintenance training, instrument and control technician training, requalification training, and training in the mitigation of core damage. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

One unresolved item is identified in paragraph 8 of the enclosed inspection report.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.
