Boston University Medical Center
ATTN: Belton A. Burrows, M.D.
Director of Radiation Protection
75 East Newton Street
Boston, Massachusetts 02118

Gentlemen:

This refers to your letter dated May 4, 1984, for an amendment to Materials License 20-02215-01.

We received your check for \$40. Your application, however, is subject to an application fee of \$190 as specified in fee Category 3E and Footnote 1(d) of \$170.31, 10 CFR 170, copy enclosed. Footnote 1(d) states in part that an application for amendment to a materials license that would place the license in a higher fee category or add a new category shall be accompanied by the prescribed application fee for the new category. Your request to add the Gammacell 40 irradiator, which was previously authorized under Materials License 20-12129-02 issued to the University Hospital, will increase the scope of your licensed program to include fee Category 3E. Payment of the additional \$150 should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention at our Washington, D.C. address.

Your application will be processed by the Region I Licensing staff located at 631 Park Avenue, King of Prussia, Pennsylvania 19406. The additional fee, however, is required prior to issuance of the amendment. When submitting the fee, please refer to CONTROL NUMBER 02399.

Sincerely,

Original Signed By
Glenda Jackson
