Docket No. 50-352A

Mr. John S. Kemper, Vice President
 Engineering and Research
 Philadelphia Electric Company
 Post Office Box 8699
 2301 Market Street
 Philadelphia, Pennsylvania 19101

Dear Mr. Kemper:

RE: LIMERICK GENERATING STATION, UNIT 1 - NO SIGNIFICANT CHANGE FINDING

With reference to the operating license antitrust review of the captioned nuclear unit, the Director of Nuclear Reactor Regulation has made a finding in accordance with Section 105c(2) of the Atomic Energy Act of 1954, as amended, that no significant (antitrust) changes in the licensee's activities or proposed activities have occurred subsequent to the previous construction permit review.

The Director's initial finding is subject to reevaluation if a member of the public requests same in response to publication of this finding in the Federal Register. A copy of the notice that is being transmitted to the Federal Register and a copy of the staff review are enclosed for your information.

Sincerely,

William H. Regan, Jr., Chief
 Site Analysis Branch
 Division of Engineering
 Office of Nuclear Reactor Regulation
