Tennessee Valley Authority) 50-328

By L. M. Mills' October 2, 1984 letter (TVA-SQN-TS-60) to you, we provided a request to amend the operating licenses, DPR-77 and DPR-79, for our Sequoyah Nuclear Plant to change the technical specifications. Enclosed are 40 copies of revised pages to Enclosure 1 of the October 2, 1984 letter. These revised pages correct inadvertent errors in the proposed technical specifications. These revisions do not change any of the evaluations previously stated in the October 2, 1984 letter.

If you have any questions concerning this matter, please get in touch with Jerry Wills at FTS 858-2683.

Very truly yours,
