Docket No. 50-313

OCT 17 1984

Arkansas Power & Light Company  
ATTN: Mr. John M. Griffin  
Senior Vice President of Energy Supply  
Post Office Box 551  
Little Rock, Arkansas 72203

Gentlemen:

We have received a copy of your letter dated August 27, 1984, which transmitted your Second 10-Year Inservice Inspection Program and requested relief from certain ASME Code requirements for Arkansas Nuclear One Unit No. 1. Fees pursuant to 10 CFR 170 were not remitted with your request.

Since your application was filed after the June 20, 1984 effective date of the revision to 10 CFR 170 (copy enclosed) on fees, it is subject to the provision of the revised rule. This rule requires licensees to remit an application fee of \$150 with each application for license amendment, relief, exemption and other requests. Therefore, it is requested that your Company remit the required application fee of \$150 for your August 27 request. The ONRR staff has informed us that they consider this submittal to be a new application which requires MRC review and approval in order to determine that the program meets the requirements of Section XI of the 1980 ASME Boiler and Pressure Vessel Code and Addenda.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 2 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by:
