

JUL 18 1984

Mr. D. F. Schnell  
Vice President - Nuclear  
Union Electric Company  
P. O. Box 149  
St. Louis, Missouri 63166

Dear Mr. Schnell:

Subject: Review of Design for Automatic Shunt Trip for Scram Breakers -  
Callaway Plant, Unit 1

The staff has completed its review of the Union Electric (UE) response to Item 4.3, "Reactor Trip System Reliability (Automatic Actuation of the Shunt Trip Attachment for Westinghouse Plants)," of Generic Letter 83-26. The detailed evaluation is enclosed. As noted in the report, UE should provide the results of the Westinghouse Owners Group seismic qualification of the shunt trip attachment and submit proposed Technical Specifications once the modification has been implemented.

Based on its review of the UE submittal the staff has concluded that the shunt trip modification is acceptable for implementation. If you should require any additional assistance, please contact the Callaway Project Manager.

Sincerely,

ORIGINAL SIGNED BY:

B. J. Youngblood, Chief  
Licensing Branch No. 1  
Division of Licensing

Enclosure:  
As stated
