In the Matter of  
Philadelphia Electric Company  
(Limerick Generating Station, Units 1 and 2)  
Docket Nos. 50-352, 50-353 CL

Dear Administrative Judges:

Attached for your information is a letter dated July 23, 1984 from John L. Patten, Director, Pennsylvania Emergency Management Agency to Dr. Roy C. Claypool, District Superintendent, Owen J. Roberts School District responding to the latter's June 7, 1984 letter to Governor Thornburgh regarding resources for radiological emergency response planning.

Very truly yours,

  
Zori G. Ferkin  
Assistant Counsel

Re: Limerick Nuclear Power Plant -- Emergency Response  
Planning

Dear Dr. Claypool:

I am writing in response to your letter of June 27, 1984 requesting aid in notifying governmental agencies of deficiencies in the emergency response plan for the Owen J. Roberts School District in the event of an accident at the Limerick Nuclear Generating Station. The Governor's Energy Council plays only a small role in fixed nuclear facility emergency response planning and is therefore not in a position to address the specific emergency planning matters you have cited.

In response to your concerns, I would refer you to the July 23, 1984 letter to you from the Director, Pennsylvania Emergency Management Agency (PEMA). PEMA is the lead agency in the Commonwealth of Pennsylvania for coordination of radiological emergency response planning, and as such is best able to address the issues you raise. I hope that, through a cooperative effort, your issues of concern can be readily resolved.

Very truly yours,

  
Zori G. Ferkin  
Assistant Counsel
