Docket No. 50-301

Wisconsin Electric Power Company
ATTN: Mr. C. W. Fay
Vice President
Nuclear Power Department
231 West Michigan, Room 308
Milwaukee, WI 53201

Gentlemen:

We have completed our review of the June 29, 1984, revisions to Appendix C of the Point Beach Nuclear Plant Emergency Plan. Our review indicated that your plan changes do not downgrade the effectiveness of your emergency plan.

Please be reminded that 10 CFR Part 50.54(q) requires NRC approval of any changes to your plan which may decrease the effectiveness of the plan. However, if your safety review indicates no decrease in emergency preparedness, then changes can be made without NRC approval. In all cases, you should furnish copies of each proposed change to the NRC in accordance with 10 CFR Part 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR Part 50, Appendix E, Section V (Implementing Procedures).
